DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki et al. EP 0762151.

Suzuki et al. discloses a method of forming a plasma CVD film of a metal oxide on the surface of a substrate, the deposition is done by feeding an organometal compound gas and an oxidizing gas into a chamber, wherein the rate of feeding the oxidizing gas is varied during the deposition process (see Method of Making Optical Article and the examples).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
